

Shrewsbury Abbey
welcomes you to
"Open Door"

TEACHER'S COPY

Your plan of the Abbey

Use this plan to help you with your visit.

1 Font, 2 Tomb of Roger de Montgomery, 3 Nave,
4 Pulpit, 5 Lectern, 6 High Altar, 7 Lady Chapel,

1 The North Porch

Fill in the words and the date on the picture of the door.

Sanctuary is a place of safety.

Reverence is another word for respect.

This has been a place of prayer for 1000 years.

It's a special place where people come for happy times like weddings and christenings and also sad times like funerals.

It has not always been peaceful here. During the Civil War of 1642 this was a Royalist town. See if you can find the two holes made by musket balls at the side of the door. Look for the marks where they sharpened their daggers and arrow heads by the door.

2 The Font

This is where people are baptised when they become Christians. It marks the beginning of their Christian life.

Do you know another name for baptism? Christening

Why do you think the **font** is placed near to the main

door? It is the first thing that people see when they come in.

The first thing that people do when they become a Christian is to be baptised.

The base of the font is the oldest worked stone in the Abbey. It is an upside down pillar, probably from the Roman city of Viroconium. The top is a very heavy carved lid.

What would the vicar put into the font at a baptism? Water.

Nowadays we use a portable font at the front of the Abbey so that everyone can see and hear.

3 The Nave

Sit down in one of the long seats called a pew.

You are in the **nave**, the oldest part, built in 1083 by the Norman, Roger de Montgomery, Earl of Shrewsbury.

The original Abbey was much larger than it is today. Henry VIII knocked down the East End and the monastery buildings in 1539 and it is said that he stole all the treasures and money. The parish priest was allowed to stay. The nave is all that is left of the original building.

The Norman **arches** are low and rounded and have large round pillars to support them. How many Norman arches can you see? 3 on either side- 6 altogether.
Can you complete the rest of the Norman arch?

4 The Pulpit

At the front of the Abbey on the left of the chancel is the **pulpit**. This is where the priest stands to talk to the people in the congregation.

Can you think of two reasons why it is so high? So that everyone can see the preacher and so that he can see them.

Can you find the lion guarding the pulpit?

Why has a lion been chosen for this job? He is the king of the beasts and makes sure that only truth is preached here.

There are two more stone animals to find near here. At the base of the arched doorway near the pulpit is a coiled snake. At the bottom of a pillar to the left of the organ is a dove. If you have time, look up a story about them in the Lectern Bible.

Genesis chapter 3 verse 1

Luke chapter 3 verse 22

5 The Lectern

On the other side opposite the pulpit is the **lectern**.

The Bible is read from here during services.

The lectern is in the shape of an eagle standing on a globe.

The Bible rests on the eagle's out-stretched wings.

What do you think the globe represents? The World.

The Organ

In the chancel you will also find the **organ**. The organist has to use his hands to play the keys and his feet to play the pedals. Air is pumped through the pipes to make the sound. Can you estimate how many organ

pipes there are? There are 3,000 pipes altogether.

6 The High Altar

At the end of the chancel we come to the **High Altar**. This is a special place where the Holy Communion is celebrated. What can you see on this Holy Table?

A cross, 2 candlesticks, a special white cloth over a coloured cloth which is changed for different seasons.

Behind the table is a beautiful, decorated painting. It is called a reredos and is in 3 parts so it is called a triptych. During Lent, the solemn time before Easter, the triptych is closed to give a very dull picture. On Easter Day it is opened again to celebrate Jesus rising from the dead.

7 The Lady Chapel

At the side of the chancel is the **Lady Chapel**.

Who is this Lady? Mary.

Which season of the year does the window and the reredos remind you of? Christmas

This chapel is set aside for prayer. People come here at all times of the day to light a candle and to say a prayer. Sometimes they write their prayer requests on the board so that the Abbey congregation can pray for them too.

When we pray we can talk to God about anyone and anything. He always listens to us.

You might like to write your own prayer here.

Dear God,

Thank you-----

Many children will find it difficult to fill in the prayer bubble. You could encourage them to write their own list a bit like the prayer that we used with them in the Abbey. The prayer that we used with the children when we lit a candle in the Lady Chapel is this-

Dear God,

Thank you for our friends and families.

Thank you for all the people who care for us in our school.

Thank you for the wonderful world that we live in.

Thank you for this special place.

Thank you for loving and caring for us every day of our lives.

Amen

I visited Shrewsbury Abbey

Date _____

Name _____

School _____

I really enjoyed –

If you have time, you might like to find –

The Bedesman,

St Winefride's reredos,

Catherine Onslow's pomander,

St Benedict's window with Brother Cadfael

There are so many more things to see! You will want to come back again!

You might like to visit the Abbey to worship on a Sunday morning at 10.00am. There are special services for children at Christmas time too.
